NEWPORT,

CHANSTON & NORMAN, 127 THAMES STREET.

TUESDAY MORNING, NOV. 11, 1851.

We had a confidential interview with our old friend Daniel Brown, Satway evening on political matters gencoully, and particularly in regard to these of this State. Daniel opened his heart very freely, and expressed, as he cheeys does to us, his secret thoughts feelings. For many years past he been in the habit of making us a bind of father-confessor, to hear his politted sing -but they are so numerous that we dare not presume to grant him what unction there might be in our powto bestow. Daniel informs us that Gor. Allen has consented to be the locofoco candidate one more year, and then he must retire from the public serwice,-provided he is not made U. S. Benstor. Daniel thinks that if the proper means are taken, to approach and in sence Gov. Lawrence, that this patrietic and self-sacrificing gentleman can he induced to permit his name to be used sace more as a candidate for the office of Lieut. Governor,-although Daniel says this small office is not what Gov. Lawence wants. Daniel says that the Gay, would like to go to Congress, and then, if there should ever be another lo. co administration, he would strive hard for a Foreign mission. All this was said to us by Daniel in rather a confidential manner,-but as Daniel proto labor for the good of the people, ad is willing to make any sacrifice for tim object, -we leel that it is best to. make known the programme of future roccedings .- and are confident that Daniel will acquiese in this opinion, u be is notoriously one of the most amiable men living. He is only ambitious to be considered a firm and faithful locolo--and he prefers this honor rather han to be regarded as a purified Saint. Daniel says that he was the first Dorrite martyr in Rhode Island,-and that 🚅 it is an acknowledged belief that myrtrdom will hereafter be rewarded, he waits patiently for his reccompence. As coary laborer must have his particular vineyard, and produce the results of his work,-Daniel looks with proud satisfac Wen to Block Island, and the annual election returns from that famed isle of the sea, as the bright jewel which will ther in his coronet. He considers Thek Island safe so long as there is a bee of hay-seed in the market.

. Мя. Ерітоя :— Mr. James Lord, now residing in this place, has recently had bortune of more than a quarter of a million of dollars left him in England; and he is now about to visit that place, and take presession of the property,but thinks of returning again soon, and making a permanent residence in this country. He is a very worthy citizen and member both of the Baptist Church and Sons of Temperance, in this place; and will be missed very much during his absence, and all will be happy to bear of the nature of his visit, and that he is expecting to return and east his lot with us again soon. He is now one of the richest gentlemen in the State, and is a very benevolent Christian and Temperence friend and brother,-and will be the means of doing much good to those around him.

DEPARTURE OF FATHER MATTHEW. This distinguished Apostle of Temper sace took his departure in the Pacific today. He was escorted to the steamer by the Roman Catholic Total Abstinence Beneficial Society, and the New York Mibernian Befievolent Burial Society, each of which turned out in large numbers, and preceeded by a brass band .-The Reverend gentleman rode in ar epen barouche in company with the presiding officers of the society.

A large consourse of people awaited the procession at the wharf, and greated the departing philanthropist with hearty ebeers. Rather MATTREW proceeded as eace on board the ressel, bid the assembled multitude farewell, and at 12 o'clock precisely, the Pacific took her departure amid the long-repeated cheers and hearty " God speeds" of the populace .-N. The New Orleans Delta says upward of five thousand dollars worth of jewel-13, which had been contributed by hdies in Cuba, in aid of the late attempt at revolution, was sold last week by an auctioneer in that city.

One of the earliest acts of the Kenmeky Legislature, which assembles in a few days, is the election of a U. S. Senator, in place of Mr. Underwood.

If We published a paragraph yeserday in regard to a forgery committed New York, on the names of Messra laward and William H. King, of this iwn; we learn the following particuare from the N. Y. Times :-

It appears, about 2 1-4 o'clock in the fiermoon, a well dressed and respectate looking man, by the name of Wil am Hays, aged upwards of fifty years ntered the Bank of America, in Wall treet, and notwithstanding there was great crowd around the desks of the sectiving and paying tellers, he manged to force his way through to the esk of the paying teller, at which time e presented for payment a check of the escription here ennexed, and said he rished large bills for part of the amount nd the balance in smaller denominaijons. The check read:

No.- NEW-YORK, Nov. 4th. 1851. Pay to Wm. Henry King, or order, incen Hundred Dollars.

EDWARD KING. The above check was endorsed, W. I. King, and upon the Teller scrutiniing the signature of it very closely, he tonce discovered it to be a gross forery, and without being mistrusted by tays, he endeavored to detain him unil an officer could be procured. But a tow minutes had clapsed when police-Gian Lynch of the First Patrol District hame in, and by direction of the bank ofcers, he took accused into custody and jouveyed him to the Station-house, (there he was thoroughly searched by tapt. Silvey, and \$100 of the Manhatan Bank, and \$50 of the Bank of America, were found in his possession. The risoner seemed quite indignant at the olice officer for daring to arrest him, ut he could not give any satisfactory count of his whereaboats, any further han saying he was a Southern planter, which was a mere farce, and he was ubsequently conducted to the Lower iplice Office, where he was arrainged efore Judge Osborne, who took the neessary allidavit of Mr. Edwin S. Sturis, the first teller of the bank in quesion, and then committed this Hays to he City Prison for a further hearing in he matter, and until such time as the rm of Meesra. W. H. & Edward King L Co. are very extensively engaged in he manufacturing business at Newport, Rhode Island, and for many years have transacted their financial business through the above bank, where they always have several thousands of dollars on deposit. The accused is supposed to be one who has expert confederates in ound in his wallet, are the proceeds of successful forgeries, perpetrated upon merchants residing in this and other

A REFORMATION.—We met a man on Thursday who had just taken the temperance pledge from Father Mathew. Showing his certificate and medel, he exclaimed: "These cost me but twenty five cents, yet they will save me two dollarsa day?" He informed us that he had for the last month been in the habit of drinking at least strly glasses of ar-deal spirits per diem, and that, although during that time his business had yielded him an income of about eighty dollars a week, he found himself, the day before week, he found fitmself, the day before he took the pledge of total abstinence, without money enough to buy his wife a pair of shoes. The number on his cert-ificate indicated that Father Mathew has induced over six millions of persons

It is said that Mr. Bates, of Dundas, Canada, has discovered a mode of producing a beautiful light from a peculiar decomposition of common air. It is clear. smokeless and brilliant; perfectly vafe. and can be produced at so very trifling a cost that, if it turns out as described, it must supersede the use of all descriptions of artifical light now in use. It is the intention of the inventor shortly to exhibit the results of this invention to the public, and to apply for a patent

New York, Nev. 9. The U. S. Mail Steamship Hallic, Capt. J. J. Comercos, and British Mail Steamship Canada, Capt. Harrison, both arrived at an early hour this mor

ning.
The Canada came in place of the Africa, which vessel on the eve of the 25th the first day out, ran ashore on the Copeland Rocks, off Belfast, and was comland Rocks, on Belfast, and was com-pelled to return. The Africa sustained considerable damage, being at one time high and dry upon the rect, twelve feet from the water. Ilad she been running at full speed, she would inevitably have been lost. The mails and passengers of the Africa, 115 in number, were trans-ferred to the Country which reached ferred to the Canada, which reached Liverpool on Monday, and brought to this port. The Canada brought no carand brought to go, there not having been time to ship

The Bultic left on the 29th, and has splendid run. She has distancmade a spleadid run. Sine has distanced the Canada considerably, the Canada having sailed on the 28th, and with out freight, which was so much more in her favor. The Canada has however made an excellent run out and back having been absent from Boston only

twenty-four days.

The news by these arrivals is of very little interest. Kossuth had arrived in England, and was recieved with considerable enthusiasm by the people. The principal portion of his retinue remained on board the Mississippi, which sailed from Gibraliar on the 15th direct for New York. Nothing definite is stated with regard to the future movements of Kossuth.

Louis Napoleon has finally succeeded in forming a new Cabinet.

The Queen of England had decided to prorogue Parliament on the 4th inst., The overland East India mail had ar rived, but brings nothing of interest. Business at Calcutta was dull.

LECTURE.-Notice was given by handbill the fore part of the present week, that " Hon. C. F. Adams, son of the late John Quincy Adams," would lecture at the Town Hall, on Wednessday evening last. Having a desire, as others had, to see and hear the son of a President, we repaired to the hall at an early hour, expecting to find barely room to stand. But we were disappointed in that, and almost every thing else. The audience was small, the speaker smaller, and the lecture smallest. He gave a sort of rambling history of the principles of the Free Soil party, denounced and, as he no doubt supposed, annihilated Daniel Webster, expressed which the audience couldn't see—refer red to his conscientions scruples on the subject of coalitions, and closed with a most solemn appeal to justice and heaven to forbid the carrying out of the in cendiary and anti-republican doctrines of the two great parties of the day.

We did not notice but two of the loc turer's auditors who appeared to enjoy the "feast of reason and the flow of coul," and they have so long looked sour and frozen, that we think their offorts to get up a little cheering were more the offspring of politeness than enthusiasm.

The audience, including ladies, Whiga, Democrats, Free Soilers and boys, numbered about two hundred. On the whole, the offair was a total failure. -Portucket Gazdle.
